

Composite fencing 4u

Composite Fencing is built to withstand your growing family, our composite wood en fence has been tested rigorously in various working environments to ensure it meets everyday demands. Composite fencing is a timber alternative made of 60% timber content, making it strong enough to withstand any environment. Due to the design of the product it is very easy to install thus reducing the over life cost of the product. Our composite fencing is maintenance free and thus needs No Painting or Staining every year.
